

The 3rd EU Health Programme 2014-2020

Giovanni Nicoletti

EUHP National Focal Point – Italy

Ministero della salute

Public health

**is "the science and art of preventing disease, prolonging life and promoting health through the organized efforts and informed choices of society, organizations, public and private, communities and individuals"
(1920, C.E.A. Winslow)**

It is concerned with threats to health based on population health analysis. The population in question can be as small as a handful of people or as large as all the inhabitants of several continents (for instance, in the case of a pandemic). The dimensions of health can encompass "a state of complete physical, mental and social well-being and not merely the absence of disease or infirmity", as defined by the United Nations' World Health Organization.

Public health incorporates the interdisciplinary approaches of epidemiology, biostatistics and health services. Environmental health, community health, behavioral health, health economics, public policy, insurance medicine and occupational health (occupational medicine) are other important subfields.

Europe 2020 is the EU's growth strategy for the coming decade. In a changing world, we want the EU to become a smart, sustainable and inclusive economy. These three mutually reinforcing priorities should help the EU and the Member States deliver high levels of employment, productivity and social cohesion.

Concretely, the Union has set five ambitious objectives - on employment, innovation, education, social inclusion and climate/energy - to be reached by 2020. Each Member State has adopted its own national targets in each of these areas. Concrete actions at EU and national levels underpin the strategy.

- *Amount due is the balance of the final grant after the deduction of pre-financing and interim payments.*
- *The balance is a recovery, if the amount of earlier payments exceeds the final grant amount.*

General principles EC funding

Applicable to all financing mechanisms

1. Co-funding rule: external co-financing from a source other than EC funds is required (own resources or financial contributions from third parties)
2. Non-profit rule: the grant may not have the purpose or effect of producing a profit for the beneficiary (total Expenses = total incomes)
3. Non-retroactivity rule: only costs incurred after the starting date defined in the grant agreement can be co-funded
4. Non-cumulative rule: only one grant can be awarded for a specific action carried out by a given beneficiary

Implementation

Annual Work Programmes

The Commission implements the Programme by establishing annual work programmes in accordance with Regulation (EU, Euratom) No 966/2012 and the criteria set out in Annex II of the Regulation (EU) No 282/2014

Programme Committee Members

The Commission is assisted by a committee for establishing the annual Work Plans and monitor the Programme implementation.

Evaluation of proposals

7 ways to create EU-added value

1. Implementing EU legislation
2. Economies of scale
3. Promotion of best practice
4. Benchmarking for decision making
5. Cross border threats
6. Movement of persons
7. Networking

7 ways to create EU-added value

1. Implementing EU legislation

- Objective: ensuring that legislation is implemented correctly
- Example: JA on Facilitating collaboration on organ donation between national authorities in the EU

2. Economies of scale

- demonstrate 'return on investment' for MS & ensure sustainability
- Objective: To save money, and to provide better service to citizens
- Target: No duplication of efforts
- Example: JA on Forecasting health workforce needs for effective planning in the EU

7 ways to create EU-added value

3. Promotion of best practice

- Objective: Citizens benefit from state of the art best practice, capacity building where necessary
- Target: 'best practice' applied in all participating MS
- Example: JA on Mental Health and well-being

4. Benchmarking for decision making

- Focus on indicators with real impact on decision making.
- Objective: To facilitate evidence based decision making
- Target: Real time data comparison available
- Example: JA on Improvement of HIV prevention in Europe

7 ways to create EU-added value

5. Cross border threats

- Objective: To reduce risks and mitigate consequences of health threats
- Target: Depending on individual threats
- Example: JA on the impact on maritime transport of health threats

7 ways to create EU-added value

6. Movement of persons

- Patients crossing borders, migration issues and Brain drain - movement of workers across Europe
- High 'EU legitimacy'. Ensure high quality Public Health across EU MS. Added value depends on the scale of the problem
- Example: JA on Forecasting health workforce needs for effective planning in the EU

7 ways to create EU-added value

7. Networking

- Very difficult to put into objectives, targets, and indicators.
- Is a 'side effect' of other actions
- Is the rationale of the funding of 'networks'
- Is very important for dissemination of the results to all MS including non-participants

Objective: Put more emphasis on new approaches to prevention of major chronic diseases, including linking prevention to healthcare interventions, with an emphasis on groups most at risk.

Scope: The projects funded should concentrate on identifying innovative approaches to prevention, taking some of the most important preventable chronic diseases as an example. They will focus on:

(a) **diabetes prevention:** improved implementation of good practice and the development of guidance on innovative and targeted prevention of diabetes type 2, in particular among people at high risk. Projects should draw lessons from research on metabolic profiles including children, and develop new targeted approaches to prevention in high risk groups;

(b) **cardiovascular diseases:** based on the knowledge and recommendations on the prevention of cardiovascular conditions, the aim is to identify innovative and modern prevention measures tailored to reach in particular high risk populations, i.e. people with either genetic pre-disposition or unfavourable lifestyles, and to demonstrate their potential to reduce the incidence of cardiovascular conditions; and

(c) **identification of good practice of linking and integrating prevention and healthcare intervention.** This includes that the effectiveness of prevention measures identified in the projects above should be rigorously assessed for their uptake in the disease and care management, using standardized data systems linking primary and secondary prevention e.g. population-based disease registries, and identifying good practice for prevention interventions in different healthcare settings in Europe.

Type of action: Project (HP-PJ)

- COSME details: Programme for the Competitiveness of Enterprises and SMEs (COSME) will run from 2014 to 2020, with a planned budget of €2.3bn. It will facilitate SME access to finance, create supportive environment for business creation, help small businesses operate outside their home countries and improve their access to markets.
- 3rd Health Programme details: The **Third Health Programme** will run from 2014 to 2020, with a planned budget of 449 million EUR. It will support actions that complement, support and add value to the policies of the Member States to improve the health of EU citizens and reduce health inequalities by promoting health, encouraging innovation in health, increasing the sustainability of health systems and protecting Union citizens from serious cross-border health threats.
- Consumer Programme details: The **Multiannual Consumer Programme** 2014-2020 has a planned budget of 188 million EUR. It will support actions that ensure a high level of consumer protection, that empower consumers and that place the consumer

Submission and Evaluation of Proposals Assent Disclaimer

By pressing the following button, you accept the terms and conditions of usage of this site and more specifically :

Proposal pre-registration data

- Information used for the pre-registration and creation of a draft proposal: Call, topic, type of action; Participant Identification (PIC) code of your Organisation, Acronym, Short Summary, Panels and Keywords. (Step3) and the list of participating organisations (Step4) - can be used by the services in charge for the planning of evaluations.
- Short Summary describes briefly the purpose of the proposal with a maximum of 2,000 characters. Entering at least keywords will help the services in the planning of the evaluations. Coordinators may choose to enter 'xxx' at this stage should they prefer not disclosing any data. The 'Short summary' information is then copied to the "Abstract" field in the administrative form and can be modified there. *If you do not wish any of your pre-registration data to be available to the European Commission/service in charge prior to call closure then please send an email to the Participant Portal Service Desk (address available at the foot of the screen and in the User Guide).*

Part B

- File format:** For the Technical Annex (part B) you must use exclusively PDF ("portable document format", compatible with Adobe Acrobat version 5 or higher, with embedded fonts). Annexes might have an obligatory page limit. Please check for the number and type of mandatory or optional annexes for the call in the relevant call documentation. Annexes with excess pages where page limit applies, will receive a watermark upon upload to the system. Users will receive a warning when trying to submit an annex with excess pages.
- Time constraints:** Preparation and uploading of the PDF formatted technical annex may take some time. You should ensure that this has been completed in time, well before the call closure deadline.

Submission

- In order to be made available for evaluation, proposals must be submitted prior to the call closure deadline. Likewise, modifications to proposals or uploaded attachments are also required to be submitted prior to the call closure deadline or they will not be taken into account. Proposals may be submitted or withdrawn at any time prior to the call closure deadline. There is only ever one version of a submitted proposal, as submission over-writes the previous version.

Personal Data

- We will process personal data in accordance with Regulation No 45/2001 and according to the "notifications of the processing operations" to the Data Protection Officer (DPO) of the Commission/Agency (publicly accessible in the DPO register). 1) The coordinator declares to have explicit consent of all applicants on their participation and on the content of this proposal.*	<input type="checkbox"/>
2) The information contained in this proposal is correct and complete.	<input type="checkbox"/>
3) This proposal complies with ethical principles (including the highest standards of integrity — as set out, for instance, in the European Code of Conduct for Research Integrity — and including, in particular, avoiding fabrication, falsification, plagiarism or other misconduct).	<input type="checkbox"/>
4) The coordinator confirms that: - he/she carried out for the coordinator's organisation the financial capacity self-check and has received confirmation from each participant that they have carried out the same at https://ec.europa.eu/research/participants/portal/desktop/en/organisations/lfv.html unless the coordinator or any participant is exempt from the check being a public body.	<input type="checkbox"/>
5) The coordinator hereby declares that each applicant has confirmed: - that if it is receiving an Operating Grant from any EU programme, it will not claim indirect costs for this action for the specific year covered by the Operating Grant.	<input type="checkbox"/>
6) The coordinator hereby declares that each applicant has confirmed: - each applicant is fully compliant with the exclusion and eligibility criteria set out in the specific call for proposals; and - applicants have stable and sufficient sources of funding to maintain their activity throughout the period during which the activity is being carried out and to participate in its co-financing; and - applicants have the professional resources, competences and qualifications required to complete the proposed action.	<input type="checkbox"/>

The coordinator is only responsible for the correctness of the information relating to his/her own organisation. Each applicant remains responsible for the correctness of the information related to him/her and declared above. If the proposal to be retained for EU funding, the coordinator and each beneficiary will be required to present a formal declaration in this respect.

According to Article 131 of the Financial Regulation of 25 October 2012 on the financial rules applicable to the general budget of the Union (Official Journal L 298 of 26.10.2012, p. 1) and Article 145 of its Rules of Application (Official Journal L 362, 31.12.2012, p.1) applicants found guilty of misrepresentation may be subject to administrative and financial penalties under certain conditions.

Simplified Budget Table

Actions co-funded under the third Health Programme may receive a co-funding of up to 80% of the total eligible cost for the action, if they are deemed to be of exceptional utility towards achieving the objectives of the Programme. To receive up to 80% of co-funding, the proposals must comply with the criteria set out below:

- 1. At least 60 % of the total budget of the action is used to fund staff
(This criterion intends to promote capacity building for development and implementation of effective health policies).
- 2. At least 30 % of the budget of the proposed action is allocated to Member States whose gross national income (GNI, as published by EUROSTAT) per inhabitant is less than 90 % of the Union average. *(This criterion intends to promote the participation of health actors from Member States with a low GNI).*
- 3. The proposal demonstrates excellence in furthering public health in Europe and has a very high EU added value.
- The coordinator confirms that he/she applies for up to 80% EU contribution due to exceptional utility of the proposal. The coordinator confirms being aware that in case of not meeting the criteria for exceptional utility the final EC contribution will only be up to 60% and additional applicant's contribution will become necessary.

Your proposal may qualify for an EU contribution of up to 80% due to exceptional utility.

Call 2014: Actions co-financed with MS authorities – Joint Actions

- JA have a clear EU added value and are co-financed either by competent authorities that are responsible for health in the MS or in the third countries participating in the Programme, or by public sector bodies and non-governmental bodies mandated by those competent authorities.
- *Proposals should provide a genuine European dimension. Depending on the scope of the action, previous JA involved on average 25 partners.*
- A multibeneficiary grant agreement.

3rd HP: New procedure for JA

- Direct grant procedure = > all participants have to be nominated first (no open call!)
- If a European umbrella organisation/NGO wants to participate in a JA, it must be designated by a MS competent authority through a transparent procedure.
- For the "follow-up" JA (second phase of an existing JA): because an organisation is part of the running/finishing JA, this organisation is not automatically designated to participate in the new JA on the same topic!
- As in PHP2, international organisations (e.g. WHO, OECD, etc.) are not eligible to participate.
- Chafea will carry out spot checks concerning the transparency and legality of the designation process.

How much co-funding?

- *EU contribution is **60 %** of the total eligible cost;*
- *In cases of exceptional utility, it is **80 %**.*

Who can participate?

- *Country eligibility – EU28 and EEA (Norway and Iceland).*
- *Focus: MS authorities*
- *Public sector bodies and non-governmental bodies from the above countries can participate in JA, if they are mandated by competent authorities.*
